DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-27, drawn to a concrete *mixing truck* with drum wall and support member

Group II, claim(s) 28-58, drawn to a *mixing drum* with a wall and support member.

Group III, claim(s) 59-64, drawn to a support member with *fiber and resin*.

Group IV, claim(s) 65-71, and 77-81 drawn to a *spiral formation* with a support member and spacer members, or a flexible support member.

Group V, claim(s) 72-76, drawn to a *method* for forming a projection around a support member.

2. The inventions listed as Groups I through V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- a. The same or corresponding feature between the groups are to a support member.
- b. The feature of a *support member* in a mixing drum is established as known in the art as evidenced by Khuri et al WO01/268171 (See PTO 1449 papers filed 09/05/2006).

c. Accordingly since each of the groups lack a same or a corresponding special technical feature, as evidence by the art, the Groups have a lack of unity to a single general inventive concept.

3. The written requirement is made to provide foreign applicants a time period to review and respond to the requirement above.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tony G. Soohoo whose telephone number is (571) 272 1147. The examiner can normally be reached on 8AM-5PM, Tues-Fri.
